

Project Schedule and Submission Guidelines

Lab Section 09

✓ Week 0: 13 Jul

Submission

- Form your teams.
- Update the team information in the spreadsheet.

Task for the Next Class

- Identify three unique project topics and suitable datasets.
-

✓ Week 1: 20 Jul

Submission

- Update the spreadsheet with three proposed topics and their corresponding datasets.

Faculty members will review the proposals and finalize the topic for each group.

Task for the Next Update

- Read research papers on existing work related to your selected topic.
 - Write the Introduction and Literature Review sections.
 - Check Week 4 requirements
-

✓ Week 2: Midterm Exam

No Lab or submission.

✓ Week 3: No Lab and No Submission

Task for the Next Update

- Load your dataset.
 - Perform initial Exploratory Data Analysis (EDA).
 - Perform initial data preprocessing.
 - Check Week 4 requirements
-

✓ Week 4: 11 Aug

Project Update 1

Submission

1. Project Report

Submit a 2–3-page DOC file containing the following sections:

Introduction

The Introduction must include:

- **Problem Statement:** Clearly define the problem being addressed.
- **Project Objectives:** List the key goals of the project.
- **Short Literature Review:** Provide a brief summary of existing work related to the selected topic.
 - A group of three members must review nine papers, with three papers assigned to each member.
 - A group of two members must review eight papers, with four papers assigned to each member.
 - Each paper summary must be approximately 100–120 words.

- Each summary should discuss the paper's approach, performance, limitations and research gaps.
- **Dataset Identified:** Include the dataset name, source link, data format and a short description.

2. Google Colab Notebook

Submit a Colab notebook containing:

- Initial EDA
- Initial preprocessing

Task for the Next Update

- Complete the EDA and preprocessing.
 - Fix the issues identified in the previous report.
 - Write the Dataset chapter, including the EDA and preprocessing procedures.
-

Week 5: 18 Aug

Project Update 2

Submission

1. Google Colab Notebook

Submit a Colab notebook containing:

- Completed EDA
- Completed preprocessing

2. Updated Project Report

Submit the previously submitted DOC file with the following updates:

- Revised Introduction
- Revised Literature Review
- Dataset chapter
- EDA findings
- Preprocessing procedures

Task for the Next Update

- Convert the DOC report into LaTeX.
- Write the Abstract.
- Implement at least three models.
- Adjust the preprocessing steps based on the model performance, where necessary.

Week 6: 25 Aug

Project Update 3

Submission

1. Google Colab Notebook

Submit a Colab notebook containing:

- Implementation of at least three models
- Finalized EDA
- Finalized preprocessing

2. LaTeX Project Report

Submit the converted LaTeX report containing:

- Abstract
- Introduction
- Related Work
- Dataset
- EDA
- Preprocessing

Task for the Next Update

- Implement all remaining models.
- Complete all remaining sections of the project report.

Week 7: 1 Sep

Project Update 4

Submission

1. Google Colab Notebook

Submit a fully organized Colab notebook containing:

- All model implementations
- Finalized EDA
- Finalized preprocessing
- Model evaluation and comparison

2. Full Project Report

Submit the complete project report in LaTeX.

Week 8: 5 Sep

Project Update 5: Final Submission

Submission

- Final polished project report in PDF format
- A 10–12-minute video presentation
 - The video must be uploaded to YouTube as either an unlisted or public video.
 - Submit the YouTube video link.
- All source codes and project files
